

WHAT IS CLAIMED:

1. A novelty kit for providing decorative and disposable fashion wear for body parts that also protects the decorated body parts from abrasion, comprising:
 - 5 a) a flexible, trimmable pad having top and bottom surfaces;
 - b) an adhesive material on said top surface for removably securing said pad to a body part;
 - c) a decoration to be applied to said bottom surface; and
 - d) a removable layer covering said adhesive material.
- 10 2. A method of decorating and protecting a body part comprising the steps of:
 - a) furnishing a flexible pad having a top and bottom surface;
 - b) providing an adhesive on said top surface and a peelable film to preserve said adhesive until used;
 - 15 c) providing decoration selected from at least one of the group comprising color, pattern, graphic design, text, advertising, relief design, and texture;
 - d) trimming said pad to a desired shape to apply to at least one body part selected from the group comprising feet, hands, knees, and elbows, and parts thereof;
 - 20 e) peeling said film from said adhesive and applying said pad to a selected body part.
3. The invention of claim 1 further comprising a reusable adhesive.
- 25 4. The invention of claim 1 further comprising pre-formed, cupped pads for at least one of toes, knees, elbows, and animal pads.
5. The invention of claim 1 further comprising material selected from cushioning, magnetic material, and gel disposed in said pad between said top and bottom surfaces.

6. The invention of claim 1 further comprising the addition of a first layer of thistle cloth to at least a portion of said bottom layer and a protective shell having a second layer of thistle cloth to engage said first layer of thistle cloth and means for absorbing the shock of a blow to said shell.
- 5
7. The invention of claim 1 further comprising means for adapting said pad to apply to the feet of animal pets.
- 10 8. The invention of claim 2 further comprising a reusable adhesive.
9. The invention of claim 2 further comprising pre-formed, cupped pads for at least one of toes, knees, elbows and animal pads.
- 15 10. The invention of claim 2 further comprising material selected from cushioning, magnetic material, and gel disposed in said pad between said top and bottom surfaces.
11. The invention of claim 2 further comprising the addition of a first layer of thistle cloth to at least a portion of said bottom layer and a protective shell having a second layer of thistle cloth to engage said first layer of thistle cloth and means for absorbing the shock of a blow to said shell.
- 20
12. The invention of claim 2 further comprising means for adapting said pad to apply to the feet of animal pets.
- 25
